Warangal, Telangana

EDUCATION

SR University 2024 – 2028
B.Tech in Computer Science Engineering (AI & ML) Warangal, Telangana

- **Coursework:** Data Structures and Algorithms, Machine Learning, DBMS, Object-Oriented Programming,
- **CGPA: 9.98/10**

SKILLS

Programming Languages: Python, C, JavaScript
Web Technologies: HTML, CSS, React.js, Node.js, Express.js
Databases: MySQL, MongoDB
Computer Science Fundamentals: DSA, OOP, DBMS, OS
Languages: English,Telugu

EXPERIENCE

Celonis Online
Virtual Intern – AI in Process Intelligence

- Explored AI-driven process intelligence concepts and their applications in business process analysis and optimization.

Google Online
Virtual Intern – Artificial Intelligence and Machine Learning

- Gained practical exposure to Artificial Intelligence and Machine Learning concepts through virtual internship activities.

PROJECTS

AI Smart Classroom Assistant

- **Tech Stack**: React.js, Node.js, Express.js, FaceAPI.js, MongoDB | GitHub
- Developed RESTful APIs for frontend-backend communication.
- Implemented FaceAPI.js for automated attendance, reducing manual effort and improving accuracy.
- Integrated an AI chatbot, notes generator, and language translation to enhance the student learning experience.
- Devoloped an analytics dashboard for attendance tracking, classroom management, and student performance.

Food Delivery Time Prediction

- **Tech Stack**: Python, Pandas, NumPy, Scikit-Learn, Google Colab | GitHub
- Developed a machine learning model to predict food delivery time using delivery distance, weather, traffic conditions, vehicle type, preparation time, and courier experience.
- Performed data preprocessing, feature engineering, and exploratory data analysis (EDA) to improve model performance
- Trained and evaluated Linear Regression, Decision Tree, and Random Forest models, selecting Random based on its performance (R2 score:0.78).

Online Examination System

- **Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB | GitHub
- Developed a full-stack online examination system with role-based authentication for secure access by administrators and students.
- Built and integrated RESTful APIs for user authentication, exam management, and automatic result generation.
- Designed an admin dashboard with a countdown timer, performance analytics, and student progress tracking.

ACHIEVEMENTS

- Secured a Top 10 position in **Udbhava X '26 Hackathon** by developing an innovative software solution as part of a collaborative team.
- Solved 120+ DSA problems on LeetCode
- Awarded Grade A in NCC B Certificate Examination and actively participated in NCC training camps, demonstrating leadership, discipline, teamwork, and organizational skills.

CERTIFICATIONS

Operating System Fundamentals – Infosys Springboard
Cloud Web Application Builder –AWS Academy | Credly Verified
